

INSTRUCTIONS FOR MARKING SEMI-TRAILERS

ATTENTION! Any outdated distinguishing marks should be removed!

Before sticking, the stickers should be washed thoroughly with spirit or extraction naphtha.

Class marking sticker (FRC, FNA - Pic. 3a) / nameplate (silver sticker - Pic. 2):

1. place the sticker on a flat surface, print side down,
2. tear off the silicone lining,
3. spray the sticker with water,
4. put the sticker/nameplate (silver sticker) in the destination (Pic. 4/Pic. 2),
5. press hard to get rid of the water in the space between the base and the sticker,
6. in the case of a nameplate (silver sticker), a protective foil should be stuck on it.

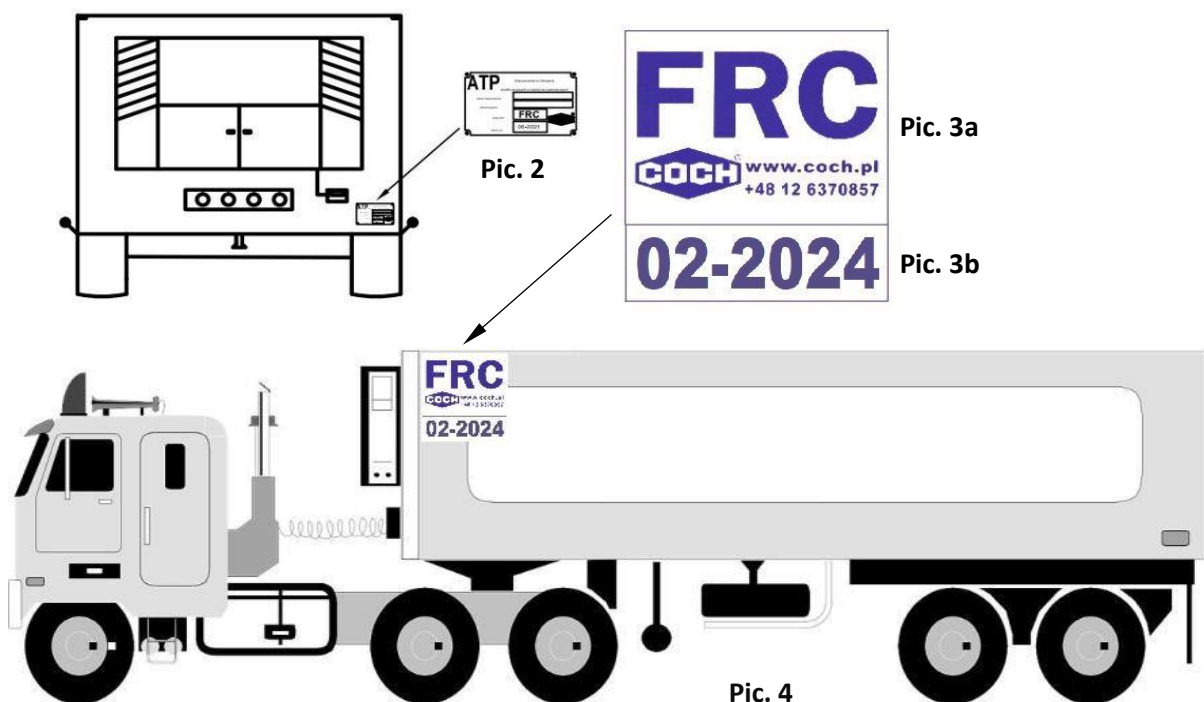

Certificate expiration date sticker (Pic. 3b):

1. place the sticker on a flat surface, print side down,
2. tear off the silicone backing, leaving inscription on the auxiliary mounting foil (Pic. 1),
3. put the sticker on the destination,
4. press hard,
5. carefully remove the mounting foil.

Pic. 1

Stickers should be placed in the upper, front corners of the side walls (Pic. 4), according to the scheme shown below (Pic. 3a/Pic. 3b).

ATTENTION! Any outdated distinguishing marks should be removed!
